You may remember my [salt lamp](#) review from last month. If you don't you can check it out [here](#). I was so blown away at these amazing lamps I was sure they had to be included in the Holiday Gift Guide. Why? These lamps are simply breathtaking! Not only are they functional but they are so unique that I'm sure anyone on your gift list this year would love one. Everybody that comes into my home just oohs and ahhs over it –it really is that spectacular.

What is a Salt Lamp?

It is a lamp created from natural salt mineral crystals mined from the underground salt mines of the Himalayan Mountains. The salt crystals are hundreds of millions of years old. The crystal is then mounted on a wooden base and a hole is made in the bottom for a special lamp to be inserted. When lit up the lamp glows the beautiful orangish color you see in the pictures.

The Salt Crystal Lamps from [Himalayan Salt Shop](#) are available in both their natural shape and in crafted shapes. They are also available in several different sizes as well. These beautiful lamps are very affordably priced –starting at \$34.99 currently on sale for \$19.99! You really can't beat that price! To view more lamps and all the products that The Himalayan Salt Shop carries visit their website at [www.saltpower.com](#)
