09/02/11 Himalayan Salt Shop – Lamp Giveaway

I've been attracted to the [Himalayan Salt Lamps](#) for some time. I love the soft glow and the rustic look, but what I didn't know is that they can benefit you as well. These salt lamps are made of natural Himalayan crystal salt, mined from underground salt mines in the foothills of the Himalayan Mountains.

The [Himalayan Salt Shop](#) was founded by Ernest Gaglione in 2005. He worked from his basement in a two family home in Bloomfield, NJ. Lugging his heavy inventory up and

down steep basement stairs. HimalayanSaltShop.Com, has become one of the biggest internet retailers of authentic, Himalayan Salt Crystal Lamps on the web, since then. Here is some more information!

The [Himalayan Salt Lamps](#) come mounted on a wooden base that matches well with the lamp. Crystal salt is hundreds of millions years old, and as a result, has special properties and high mineral content. Heat from the lamps bulb causes the salt to release negative ions. Negative ions bond with the positive ions (pollutants), and neutralizes them. Meaning the salt lamp helps to cleanse the air around you via natural ionization.

I love my [salt lamp](#), we have been keeping it on overnight too, because it makes the perfect night light.

Win it:

One Networking Witches reader is going to win the same Himalayan Salt Lamp I did (Pictured at top)

I received sample product for review. This in no way influenced my opinion. I received no monetary compensation.

☺♥ Ok I'll try not to lie but you can of course read between the lines. I am a nice person, love to chat, am very shy. Have 3 kids (I'm leaving great out because everyone says that and I don't want to be like every, but they are super kids). I have been married for 21 years. We have a dog & 2 cats which have become our entertainment since the depression. Our family always has dinner together and our usual how was your day slowly gets over run with.....Have you tried? Of course it's something our family received for review and its the talk of the table. ☺♥ [Networking Witches is FTC Compliant](#)

I learned that these lamps have a very high mineral content & the heat from the light bulb causes it to emit negative ions, which bond with + ions in the air cleaning the air – I've wanted one of these for the LONGEST time!!!((1955nursehjc4me(at)myway(dot)com))
TY!
